

## 2000 APA National Conference Proceedings Available on CD-ROM!

### New technology for new times

For the second year, AICP offers the APA National Conference proceedings on CD-ROM—an indexed, searchable compilation of session papers, illustrations, and other materials presented in New York City. The proceedings provide a permanent snapshot of the conference sessions and truly capture the wide array of topics that made the 2000 conference a valuable experience. This marks the fourth year that AICP has published the proceedings.

### Two special bonus features

This year the CD-ROM also includes a 106-page special report from APA's Growing Smart<sup>SM</sup> project, *Planning Communities for the 21st Century*. Plus, we have included the Land-Based Classification Standards (LBCS) — an exciting GIS tool developed by APA research staff.

### Order your own copy today

Every full-paid conference registrant will receive one free CD-ROM. However, if you were unable to attend the New York conference, don't miss this chance to purchase a copy of the proceedings for the special price of \$12 (plus \$3 for shipping and handling). The CD-ROM is compatible with both PC and Mac platforms.

### We'll deliver

Use the attached order form to order the proceedings CD-ROM, for mail delivery only.
